Dear Fellow Muslim,

May the Peace of God, His Mercy and His Blessings be Upon You.

You know that the Islamic Religion has its own requirement for health care, especially in the case of long and/or final illness or injury. It also has requirement for funeral and burial.

Fortunately the Islamic requirements are all consistent with human reason and the laws in our Fifty States.

The Prophet Muhammad, May Peace and Prayers be Upon Him, ordained that for illness or injury one should take medication. He said: “take medicine, surely God has not created an illness that He did not create a medicine for.” It is well known through several reports that he did not allow sufferance be inflicted on any person or on one’s own self. Suicide is obviously one of the gravest sins in our Religion.

Besides, according to the teaching of our religion disposition of a body can only be done through washing, wrapping in a simple cloth and burial in the ground with dignity and respect because a human body is honored dead or alive.

Partnership for Caring, a non-profit organization that provides support and counseling for the old has prepared forms for LIVING WILL for Health Care in case of incapacity. There is special form for each of the Fifty States in our country so that no matter where you live you can use the form of your state, sign it and keep it in a safe and known place in case it may become needed.

From the point of view of our Islamic Religion, these forms are a great help, but they need modifications in the options they provide so that they will express the desire of a Muslim, female or male to be treated according to her/his religion in case she/he is not able to make decision on her/his own.
What you need to do is two steps as follows:

**STEP ONE:**

Download the Living Will/Power of Attorney for Health Care that is relevant to your state from the Website of Partnership For Caring: www.partnershipforcaring.org. It has forms for all the 50 states according to their own local laws. Follow given instructions for filling the form and signing it. These forms are free for personal use so is this service of the ISLAMIC SOCIETY OF NORTH AMERICA (ISNA).

**STEP TWO:**

Make the following changes; they are required form Shari’ah (Islamic Law) point of view.

1. **Add under Limitation on the Authority of the Agent:**

   My agent shall take any decision regarding my health care on the basis of the Islamic principles. According to these principles life is invaluable. These principles require the provision of health care as long as there is the slightest hope of life in the body; they also require minimization of
pain.
If at any time I should have a terminal condition and permanently unconscious state and two physicians, one of them may be my attending physician and the other should be specialized in the area of my illness or injury, determine that there can be no recovery from such condition and my death is imminent and the application of life-prolonging procedures would serve only to artificially prolong the dying process, I direct that such procedures be withheld and/or withdrawn, and that I be permitted to die naturally with only the administration of medication or the performance of any medical procedure deemed necessary to provide me with comfort, care or to alleviate pain.
I do desire that nutrition and hydration (food and water) be withheld or withdrawn when the application of such procedures would serve only to artificially prolong the process of dying.
If two physicians determine that my brain died, any blood circulation or life prolonging procedures must be withdrawn unless they are needed for the implementation of Part 2 of this Advance Health Care Directive.

2. **Add under Agent’s Obligations:**
After the word “consider”:
the basic tenets and principles of Islam and the Islamic Law (Shari’ah).

3. **Under Agent’s Post Death Authority:**

   After the word “direct”:
   Delete the phrase “the disposition of my remains”
   And put in its place: my funeral and burial

4. **Delete part 2:**

   This is because we dealt with the Shari’ah approach to end of life illness, pain and life prolonging procedure in the first addition to limit the agent’s authority.

5. **Renumber part 3 as Part 2**

   And change the reference to part 3 in Sections (4) and (5) to make it (2) instead.
6. **Under donation of organs**

Add after a):

Except for Testicles/Ovary and Penis/Vagina,

7. **Renumber Part 4 as Part 3.**

8. **Renumber Sections of new Part 2 and new Part 3.**

**FINALLY,**

ATTACHED is a revised “Power of Attorney for Health Care” in the State of California, given as an example. Certainly before printing it you have to delete the irrelevant words in the highlighted.
CALIFORNIA
ADVANCE HEALTH CARE DIRECTIVE

Explanation
You have the right to give instructions about your own health care. You also have the right to name someone else to make health care decisions for you. This form lets you do either or both of these things. It also lets you express your wishes regarding donation of organs and the designation of your primary physician. If you use this form, you may complete or modify all or any part of it. You are free to use a different form.

Part 1 of this form is a power of attorney for health care. Part 1 lets you name another individual as agent to make health care decisions for you if you become incapable of making your own decisions or if you want someone else to make those decisions for you now even though you are still capable. You may name an alternate agent to act for you if your first choice is not willing, able, or reasonably available to make decisions for you. (Your agent may not be an operator or employee of a community care facility or a residential care facility where you are receiving care, or an employee of the health care institution where you are receiving care, unless your agent is related to you, is your registered domestic partner, or is a co-worker. Your supervising health care provider can never act as your agent.)

Unless the form you sign limits the authority of your agent, your agent may make all health care decisions for you. This form has a place for you to limit the authority of your agent. You need not limit the authority of your agent if you wish to rely on your agent for all health care decisions that may have to be made. If you choose not to limit the authority of your agent, your agent will have the right to:

(a) Consent or refuse consent to any care, treatment, service, or procedure to maintain, diagnose, or otherwise affect a physical or mental condition;
(b) Select or discharge health care providers and institutions;
(c) Approve or disapprove diagnostic tests, surgical procedures and programs of medication; and
(d) Direct the provision, withholding, or withdrawal of artificial nutrition and hydration and all other forms of health care, including cardiopulmonary resuscitation;
(e) Make anatomical gifts, authorize an autopsy, and direct the disposition of your remains.

Part 2 of this form lets you express an intention to donate your bodily organs and tissues following your death.

Part 3 of this form lets you designate a physician to have primary responsibility for your health care.

After completing this form, sign and date the form at the end. The form must be signed by two qualified witnesses or acknowledged before a notary public. Give a copy of the signed and completed form to your physician, to any other health care providers you may have, to any health care institution at which you are receiving care, and to any health-care agents you have named. You should talk to the person you have named as agent to make sure that he or she understands your wishes and is willing to take the responsibility. You have the right to revoke this advance health care directive or replace this form at any time.
